

**Amendments to the Claims**

This listing of claims will replace all prior versions and listings of claims in the application:

1. (currently amended) A system for transporting groceries comprising a shopping cart in combination with a shopping cart liner wherein;

said shopping cart comprises a cart basket comprising a front side, a rear side, and two opposing sides connected to said front side and said rear side, and a child transport area adjacent to said cart basket;

said shopping cart liner comprises[:] a single cart basket liner comprising a single, non-padded and non-porous basket front liner portion disposed against said front side, a single non-padded and non-porous basket back liner portion disposed against said rear side, and two non-padded and non-porous basket side liner portions disposed against said two opposing sides,[:] a child transport area liner constructed of non-padded and non-porous material disposed within said child transport area in communication with said single cart basket liner,[:] and a cart handle liner in communication with said cart child transport area liner.

2. (previously amended) A system according to claim 1, wherein said shopping cart liner further comprises a carrier handle.
3. (previously amended) A system according to claim 1, wherein said shopping cart liner further comprises a drawstring, said drawstring affixed to said single cart basket liner.
4. (previously amended) A system according to claim 3, wherein said drawstring further comprises a drawstring fastener.
5. (previously amended) A system according to claim 1, wherein said single cart basket liner further comprises at least one tab for affixing said single cart basket liner to said shopping cart.
6. (previously amended) A system according to claim 5, wherein said cart basket liner tab is removable from said single cart basket liner.

7. (previously amended) A system according to claim 1, wherein said cart handle liner comprises a tab for affixing said cart handle liner to said shopping cart.
8. (previously amended) A system according to claim 7, wherein said cart handle liner tab is removable from said cart handle liner.
9. (previously amended) A system according to claim 1, wherein said shopping cart liner further comprises a carrier handle.
10. (previously cancelled)
11. (previously amended) A system according to claim 1, wherein said shopping cart liner is removable from said shopping cart.
12. (currently amended) A system according to claim 11, wherein said shopping cart liner is convertible into a non-padded and non-porous shopping bag for transporting articles.
13. (cancelled)
14. (currently amended) A system according to claim 1, wherein said shopping cart liner is comprised of ~~at least one of a plastic material, paper product, and fabric material.~~
15. (original) A system according to claim 1, wherein said shopping cart liner is comprised of a printable material.
16. (currently amended) A system for transporting groceries comprising a shopping cart in combination with a shopping cart liner wherein: ~~for use with a shopping cart,~~  
said shopping cart comprises a cart basket comprising a front side, a rear side, and two opposing sides connected to said front side and said rear side, and a child transport area adjacent to said cart basket;  
said shopping cart liner comprises ~~comprising:~~ a flexible cart basket liner constructed of substantially nonporous material comprising a non-padded and non-porous basket front liner portion, a single, non-padded and non-porous basket back liner portion, and two non-padded and non-porous basket side liner portions, [;] and a child transport area liner constructed of non-padded and non-porous material in communication with said flexible cart basket liner, and advertising indicia printed on the flexible cart basket liner.

17. (currently amended) A ~~shopping cart liner~~ system according to claim 16, wherein said flexible cart basket liner further comprises cart handle liner in communication with said cart child transport area liner.
18. (currently amended) A ~~shopping cart liner~~ system according to claim 16, wherein said shopping cart liner is removable from said shopping cart.
19. (currently amended) A ~~shopping cart liner~~ system according to claim 16, wherein said shopping cart liner is convertible into a non-padded and non-porous shopping bag for transporting articles.
20. (cancelled)
21. (currently amended) A ~~shopping cart liner~~ system according to claim 16, wherein said shopping cart liner is comprised of at least one of a plastic material, paper product, and fabric material.
22. (currently amended) A ~~shopping cart liner~~ system according to claim 16, wherein said shopping cart liner is comprised of a printable material.
23. (previously withdrawn) A method for shielding articles transported in a shopping cart from contacting the shopping cart surface, the method comprising:
- providing a shopping cart liner operable to substantially cover a shopping cart basket, a shopping cart child transport area, and a shopping cart handle, wherein the shopping cart liner is removable from the shopping cart and convertible into a shopping bag for use in transporting the articles.
24. (previously withdrawn) A method for shielding articles transported in a shopping cart from contacting the shopping cart surface, the method comprising:
- providing a shopping cart liner operable to substantially cover a shopping cart basket, and a shopping cart child transport area, wherein the shopping cart liner is removable from the shopping cart and convertible into shopping bag for use in transporting the articles.
25. (previously withdrawn) A method for shielding articles transported in a shopping cart from contacting the shopping cart surface, the method comprising:

providing a shopping cart liner operable to substantially cover a shopping cart basket, and a shopping cart child transport area, wherein the shopping cart liner is operable to display notices.

26. (currently amended) A system for transporting groceries comprising a shopping cart in combination with a shopping cart liner wherein:

said shopping cart comprises a cart basket comprising a front side, a rear side, and two opposing sides connected to said front side and said rear side, ~~and~~ a child transport area adjacent to said cart basket, and a handle connected to said shopping cart; and

said shopping cart liner comprises a single cart basket liner constructed of a printable material comprising a single non-padded paper basket front liner portion disposed against said front side, a single non-padded paper basket back liner portion disposed against said rear side, and two non-padded paper basket side liner portions disposed against said two opposing sides[;], a child transport area liner constructed of non-padded paper disposed within said child transport area in communication with said single cart basket liner[;], and a paper cart handle liner in communication with said cart child transport area liner that covers the handle.

27. (previously presented) The system according to claim 26 wherein said single cart basket liner constructed of a printable material further comprises at least one advertisement.
